The Foundations, Savings Banks and institutions associated with CECA work every day to promote social, cultural and economic development across the country. Their strength lies in their reach and in their understanding of the needs of the communities in which they operate, as well as in their ability to organise initiatives that enable them to reach those who need it most, fostering social inclusion.

We Build Partnerships

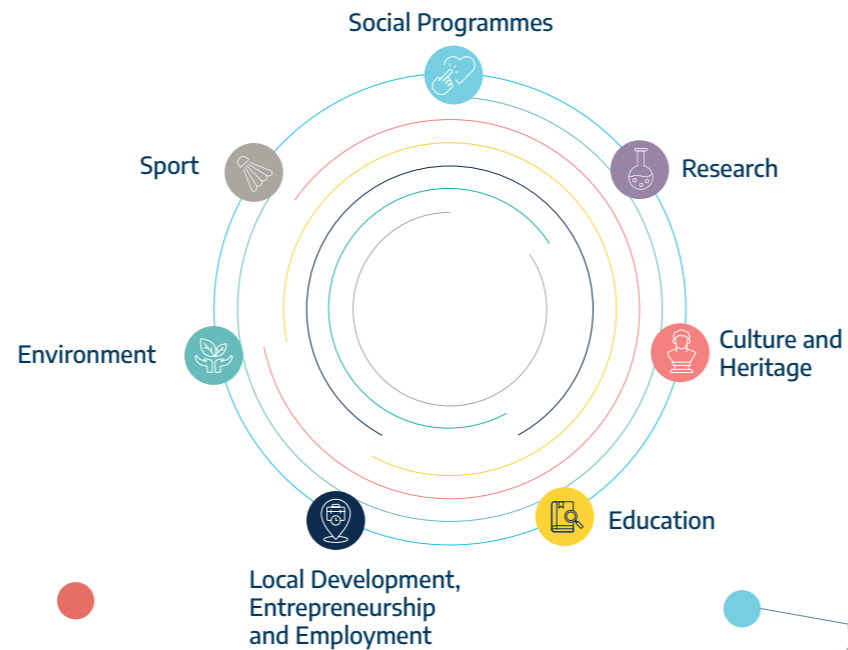

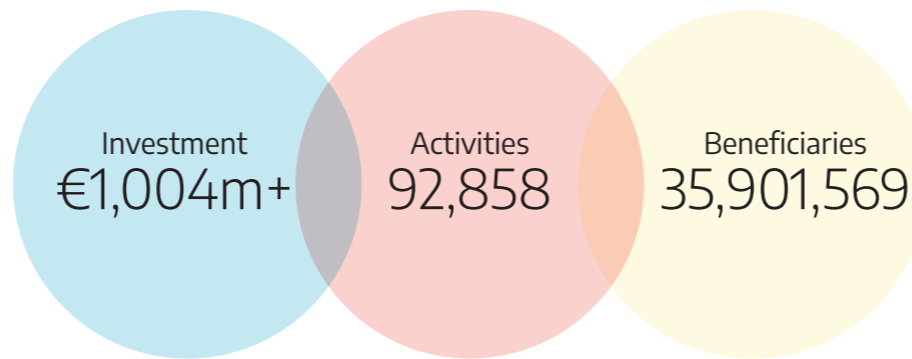

CECA is present in numerous national and international forums, where it works to promote and raise awareness of the social activity of its associated entities from a sector-wide perspective.

We are actively involved in international associations that advocate for a retail banking model, such as WSBI (World Savings and Retail Banking Institute) and ESG (European Savings and Retail Banking Group), which bring together **6,400 savings banks and retail banks** worldwide, with **1.7 billion customers** in **76 countries**.

2025 in figures

During 2025, the institutions associated with CECA carried out an activity aimed at supporting and improving the quality of life of individuals and communities in their daily lives. Based on a strong social commitment, the programmes implemented were adapted to each context and moment, contributing in a tangible way to the social wellbeing.

CECA, as a member of the Global Compact, and its member entities, contribute to the promotion of the Sustainable Development Goals.

Cumulative data 2014-2025

Since the approval of Spanish Law 26/2013 of 27 December, on Savings Banks and Banking Foundations.
