Savings Banks regime

- Stricter incompatibility regime: executives of political parties, trade unions and professional associations, elected representatives of government, senior officials of the government, or persons which held that position in the last two years, cannot be members of the governing bodies.
- **Transformation into banking foundations**: the savings bank will have to transfer its financial activity to a credit institution when the value of its assets exceeds 10 billion euros, or its market share in deposits in its autonomous region exceeds 35%.

•	Definition : Foundation	that maintains	a holding in a	credit institution that	reaches, directly or
	indirectly, at least 10% of	of the capital or	r voting rights, or a	allows it to appoint or	remove at least one
	member of its board of d	irectors.			

- **Purpose**: development of their social project and management of their participation in the financial institution.
- Requirements depending on their participation in credit institutions:
 - If it exceeds 30% or grants control: obligation to prepare a management protocol for the financial participation, and a financial plan.
 - If it exceeds 50% or grants control: in addition, the financial plan should include a plan for investment diversification and risk management, and a reserve fund has to be created (the fund will not be compulsory if the plan for diversification includes a divestment strategy in order to reduce the participation below 50% within five years).
 - If it does not reach 10% and cannot appoint at least one member of the board of directors, the banking foundation will be transformed into a general-regime (regular) foundation.

New figure: banking foundations

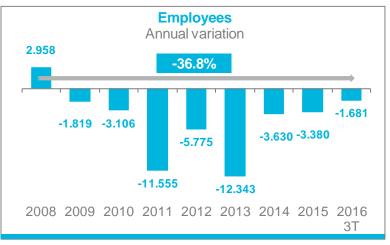

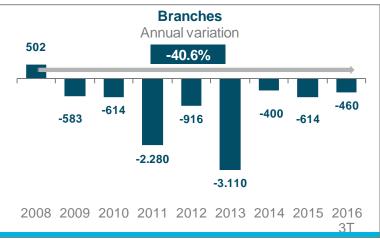

Royal D	ecree 877/2015 on reserve fund						
Content	 The minimum target amount of the reserve fund will be a percentage of the total RWAs of the group or consolidated subgroup whose parent company is the credit institution. Adjustments may be applied in different circumstances. The fund must be invested in financial instruments of high liquidity and credit quality, and may be allocated within the banking foundation itself or through a holding company. 						
	575/2015 on Annual Corporate Governance Report and banking foundation ting obligations						
Report	• It details the content and structure of the Annual Corporate Governance Report of banking foundations, and its reporting and disclosure requirements.						
Accounting	• Rules and financial information templates applicable to banking foundations are established. Bank of Spain is authorized to develop them.						
Circular Bank of Spain 6/2015 on Annual Corporate Governance Report and Annual Remuneration Report of savings banks and banking foundation obligations							
Reports	• It develops the content of the Annual Corporate Governance Report and Annual Remuneration Report of savings banks which do not issue securities listed for trading on the Stock Exchange.						
Banking foundations	• It establishes the content of: the management protocol, the financial plan and the reinforced financial plan, which some banking foundations have to develop. It also establishes the criteria for concerted action.						
Circular	Bank of Spain 7/2016 of accounting information for banking foundations						
Content	 It develops standards and models of financial information for banking foundations. It adapts accounting regulation of non-profit entities to the specific characteristics of banking foundations. Additionally, banking foundations will apply the General Accounting Plan, complemented with sectorial adaptations and Resolutions of the Institute of Accounting and Audit. 						

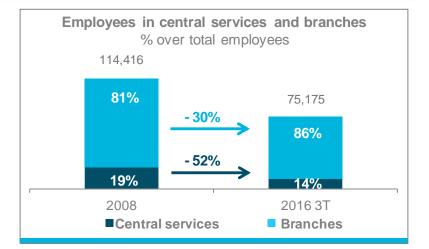

CAPACITY ADJUSTMENT

In a process of continuous adaptation to the economic and financial framework...

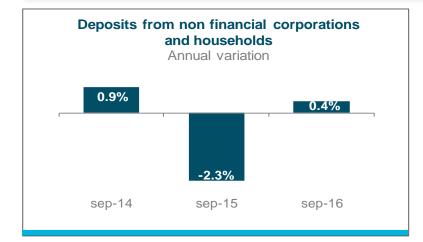

...CECA sector has carried out an intense structural adjustment since late 2008...

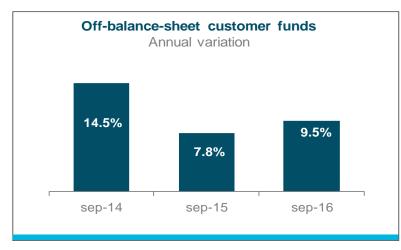

...that has come to reduce employees by 37% and branches by 41% until the third quarter of 2016

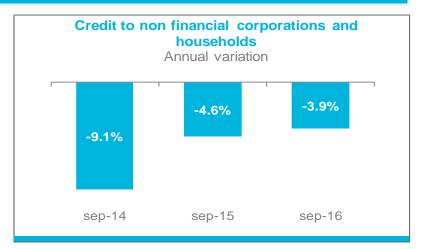

BUSINESS ACTIVITY

Deposits maintain a positive growth path in 2016 but their pace of progress slows in Q3 due to...

...the transfer to off-balance-sheet customer funds, which are again gaining momentum in 2016, especially the investment funds

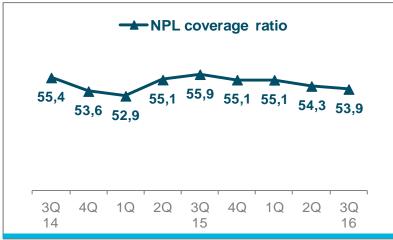

Credit deleveraging process continued to moderate

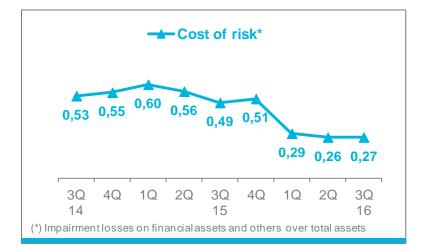

CREDIT RISK

The decreasing trend in non performing loans ratio continues....

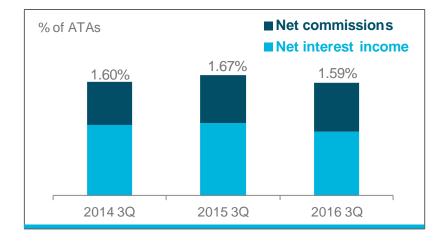

... preserving a high level of the NPL coverage ratio

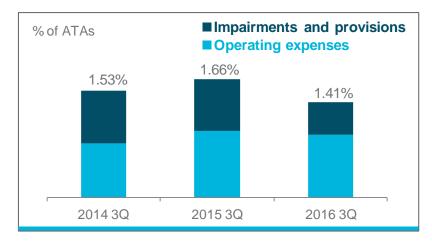

The improvement of asset quality is reflected in a substantial decrease of the cost of risk in 2016

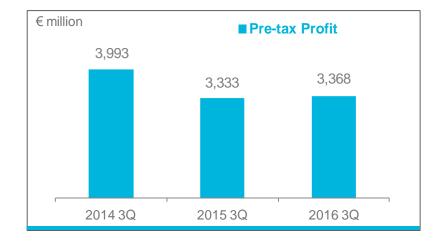

RESULTS

The decline in recurrent income due to the low interest rates environment...

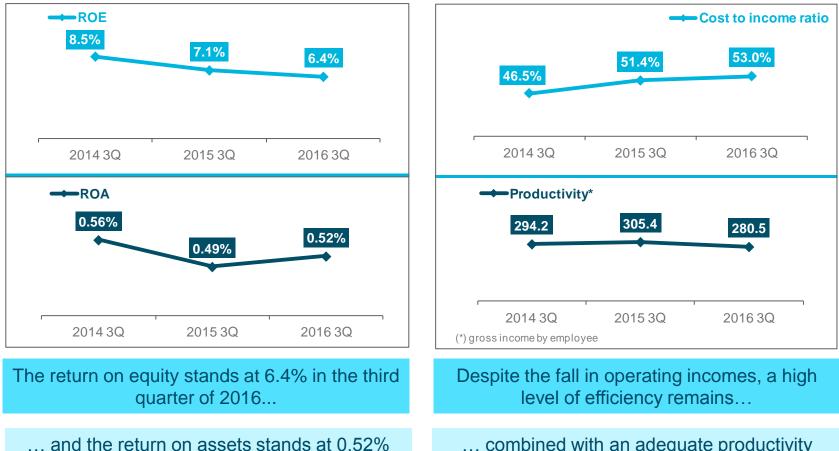

...is offset by a greater cost reduction, especially in provisions

Accordingly, the pre-tax profit increased by 1% year-on-year

FINANCIAL DATA (V)

FINANCIAL RATIOS

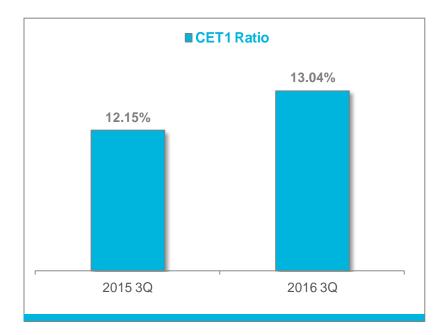

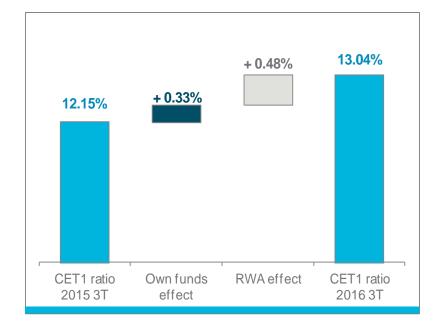

... combined with an adequate productivity level per employee

SOLVENCY

The strengthening of solvency ratios continues in 2016

The CET1 ratio stands at 13.04 in the third quarter of 2016, 89 b.p. higher than a year ago

The causal analysis of the annual variation of CET1 ratio reveals that...

...the own funds effect is 33 b.p. and the RWAs effect is 48 b.p.
