Obra Social Report 2022

The *Obra Social* is financed and led by Spain's Foundations and Savings Banks. It plays a vital role in driving social, cultural and economic development, especially for more vulnerable communities. Once again this year, it was the leading source of private sector social investment in Spain, complementing government programmes and the welfare state, and making the *Obra Social* one of the principal promoters of social inclusion today.

Building Alliances

CECA is active in many national and international organisations, where it disseminates and promotes the work of the *Obra Social* across the sector.

For instance, we are active members of the international trade bodies that represent the retail banking model, including the World Savings and Retail Banking Institute (WSBI) and the European Savings and Retail Banking Group (ESBG), with **6,400 member savings and retail banks world-wide, serving 1,400 million customers in 67 countries.**

2022 highlights in numbers

In 2022, the *Obra Social* was most active where it was most needed. Key to this was our closeness to the community, especially vulnerable families and groups, and the empathy, collaboration and local footprint of our member banks.
